Lisa L. Lewis - My Constitutional Rights and Whistle Blowing Case and Attempted Murder Case - by these individuals and companies using my onstar to stalk me hurt me physically and emotionally abuse me.

I am asking the Federal Court of Nevada to waive my court fees in this matter. Due to the great lengths these people used to harass me is criminal. Sabotaging my car using onstar is terrifying. I cannot afford to pay for all the filing fees and they purposely did this knowing that it would be very difficult to do.

I have documents I am submitting, proof of the hacked computers, I have the cell phone hacked in my possession as well as record of a iPhone. I have police reports accounting for these events.

I also have the ip addresses of the computers that I will be submitting with the copies of all the complaints I gave to the State of Nevada's Attorney General's office.

I cannot be sure even at this time do to recent events my New Chevy Malibu onstar is secure. These people stalked me to Finley Chevy in Las Vegas Nevada.

These people have continuously harassed me since I was laid off by them in CA. They have tried to stop me from moving and when I do they stalk me to where I go, where I work & where I sleep. They have continuously harassed me for my benefits and my personal finances.

They have obtained pictures of my family, my dad & my brothers and have digitized them in their made up doctored commercials.

Due to all these factors and that they are repeat criminals I want monetary compensation and prison sentences.

At this time I do not feel safe where I live in Nevada. These people know where I live they have stolen my mail again from my father. These checks had to be voided and reset. I have one envelope from my father that was tampered with and my new Bank of America credit card as some postage sticker on it that is suspicious.

I would like and believe the Federal Govt. should move me to a assured safe place, even in another state as well as secure myself employment where I will not be harassed anymore.

I know there are cases like these where all of this was granted and even one of the Wachovia Companies hired me back plus paid a monetary settlement.

All the statements above are true and all my complaints and facts given to you are true and did happen.

Attached to all this will be a list of the companies and the supporting documents. I will keep with me the United cell phones.

Here are the case numbers for my unemployment Benefits I was continuously thru their harassment.

They depleted my savings and even my unemployment Benefits money I needed to live on. I did not even file for any welfare or food stamp assistance.

They wasted my time while I was looking for employment. They hacked into my cell's computer, Bank cards, the Edd bank card & stole money also from my unemployment benefits. They hacked into MedKeps, Monster, Indeed - AND all job search sites.

The H.R. person wouldn't even take a oath with the Judge saying she would tell the truth

Since April 2018 LRS Vegas NV
 *** Mail a scam my stolen from my pad - checks
 1. I started to Drive with Lyft in ^{Invoice i.e} LRS Vegas NV. ^{damaged envelopes}
 I was harassed by them the very
 first weekend I was Driving.

2. I sent them a email with a
 list of events that have been taking
 place.
 They never contacted me to resolve
 those issues.

3. The Hub here in LRS Vegas was harassing
 me and using the App we used to
 be able to drive

4. They were hacking in the App - stopping
 my GPS, telling rides to drop me ^{where}
 I accepted them. Making me drive
 around in circles.
 They continuously stopped my G.P.S. after
 I accepted rides.

One was a elderly couple that need to
 go to the Urgent Care Center. - I had to
 call them. It was by where I live
 so I could get there first and get them
 to the Urgent Care quickly. She was a
 elderly woman.

4. I saw them in my app. Following me when I was home - so they could stalk me and follow me where I went even when I wasn't working. I have seen cars follow me - pull up to me at grocery stores.

6. First started I was at the engine waiting for my passenger in the proper location & using the app. Suddenly, a man drove by in a white full car, rolled down his window and called me a Bitch.

Later / 2 days later I saw him in a blue car drive by me staring at me during the day by where ever I go. I was out running errands - The street was Klamath Ave here is Summit in Lakeland NV.

7. I had to call Internal Affairs & speak with Detective Howell about some of these people stalking me. Some have been acting like they are Detectives FBI agent and appearing to be stalking me out.

This goes back to Dillard's - where they are involved in this harassment over my constitutional rights and my unemployment benefits over DNC & LHA & Kevin Fox & Simon Med Imaging.

Manager at Dillards Admitted they were
 probing me. -
 Dillards performs background checks before
 they hire you - which I passed as I
 always do.

Left & driver as well as passenger were doing
 this to me.

One example. I saw Detective Howell
 is Scott - He kept calling me and asking
 me to have deals with him even one.
 The next I drove him home. On arrival
 to his apt. I saw a white truck waiting
 full of cops. Scott claimed he didn't
 see this. I know he did. I pointed out to
 him before we went thru his apt gate.
 I would go in his home to have a
 deal.

I left and the truck was gone.
 He told my heroes interviewing and told
 he about a murder/spill, and a
 Boni Jovi song made him think about it.
 I also told him about a Timmy and I
 didn't get a answer on who he was.
 He told me cops are always on Duty &
 some are saying some left drivers
 drink & drive, - and like to lay around on
 unemployment. - who are they.
 They harassing me.

Our passengers are harassing me in my car - saying the same things to me as if they are sharing the same information by social networking. Some actually saying "I don't want anything to do with this".

This has been the same harassment I received from these Doctor groups since California. They create a mob to stalk me and harass me wherever I have moved to since California & wherever I have worked. They have come into my work & employees and my & since companies have helped them out.

I have call Whittier CA Police Department, Internal Affairs spoke with 400 people there. On Detective Miller. - Chad Phippen a Detective I know and have met with about this Healthcare Harassment as well as a murder investigation I have helped them with and I am for the ~~prosecution~~ prosecution. Came into LHS VARS to see me in Sept 2017 and was accompanied by a FBI agent. - I was told by them to go up to Federal Court & file for your Constitutional Rights. They all know what & who is doing this and it has been going on too long.

Also in Blue Diamond I was being followed. I did get a Lyft ride with a woman who told me she was a P.T. and could find out anything about me - I told her she couldn't - she said she could walk in a place and ask anything & get insurance information.

* You can get a list of all my Lyft ~~rides~~ rides to get the names. Also one was a couple to the Hard Rock Hotel that I picked up in a shopping plaza by a recreation store & a Church's Chicken place. Some of these passengers were saying they were from Colorado - DKG had contacts there called Premier Premier and they continuously wanted to talk about shootings. Another group that was harassing me with a gun from Florida - Simon Images in Fla. Another group was all saying they were from mps.

8. Lyft has been in my app - Flashing a picture of Nesen all in a yellow & orange glow. I worked with Nesen at ~~the~~ Marshall Retail Group in the Excalibur Hotel. He was harassing me there over Debra's & FBI records using mirrored songs. As well as the mom workers were along with him over the Nevada Healthcare Card. - Both MR6 & MB6 & Bartenders & waitresses.

9. I put also in my app trying to force me to get to a destination. We're not supposed to stay for kids. To me that is a way for them to know where I am, so they can harass me & hurt me with violence or do damage to my car.

I ignored them and never did.

10. Also they tried to zero out my earnings. Then I got a message thro the App saying up in the App - we know where your kids

11. Then I stop driving in July. They continue to follow me to places. I go as well as send a question 3 options - They want to know what I am doing & if I have another job.

I see this again as they want to keep harassing me.

12. I went to Uber in July. And I saw the same guy I have seen at the Lyft Hub from thro the Uber Hub with a cup, a band, and again mirror sunglasses. All my suspicions - Trying to make me think there a P&G agent or did me. - Then I see the same guy at the Costco I shop at here at Somerset

Also During this time frame I have been followed by Blackmen when I am driving. I believe this man's name is Sheri-Chat when he was here showed me a picture that looked like the man that was stare at me at the Starbucks on Tropicana by the Denny's & 24 hr Fitness.

I have also been followed by ~~Asian~~ people men & women to the 24 hour fitness in Summit - running by me stopping and staring at me, sitting while in front of me.

Left side where they followed me at was the Den & Lee's Liquor where passersby of mine wanted me to stop so they could get liquor for their baby room.

Also I saw him following me at the Target at the Flannery Shopping Center when I got running up to me like he is going to knock me over - then he backs off.

I went to Bids the Art store on Sunday I believe the date to be Sept 8th

By the Walmart who stole money from me & my EBT Card - that happened at the

Walmart Market. Again this was by a Denny's - The Black man was sitting on top of his car eating chips. Then a white man runs up to me and says he has Bids's & Lee's some tape & some Bids and his car is at Orlan Arts park. - Bids was used to

Hacked me in California, Irvine
at the Quail Meadows Sherbrooks by a
neighbor of mine at my apt. complex
thru who had a dog named mego.
He hacked me at my pool over my
unemployment money & over Co-ops
continually ask with my EBT benefits
to donate money - I am harassed over
this and more by the grocery store.
union workers & their customer service.

B. Whizzed at the Canyon Spa, again by the same Blonde/Pat woman following me. Again she did the same thing, got Whizzed on Plammyo + Namipen and at the Smiths Grocery store on West Charleston.

While I was speaking to Terry who was a Smith employee, doing maintenance, she ran by me and Whizzed at me.

Again One the Jones & the Hathorne and the pearl hand sanitizer.

The last complaint I have given to the NV Attorney General's office is specific dates and when they hacked my emails to find out what I was going to both Blonde woman followed me to each store I went to. As well as a guy I saw followed me to the William Sonoma Outlet store & the North outlets when I was shopping. One store was BCBG.

14. These women followed me to the TCMs by Canyon Spk off of West Charleston, Smiths, Aldersons, Messing's at Somerset Mall and the William Sonoma at Boca Raton.

I saw my email was hacked into from Ceasars Entertainment suddenly I was for a stock associate - then that was sniped away - & a panel group interview for retail associate showed up. I was upset about the hacking and didn't go.

One week later I was called by Tim Johnson a manager for retail at the Flamingo to go interview.

Another woman was there he said married with him. She ~~was~~ started to talk about Billards - and told me she knew about how to pay - then asked what would Phil the assistant manager say about me. I answered the question - then she said I am asking all the questions and she left.

Tim Invited me to the Panel Interview which was Sept 18th 2018 - There was no position for me.

So Sept 19th 2018 I got a email for the same positions they already interviewed me for. I texted Tim and asked him if they have any new openings and to let me know. & Why I just received the same positions again. I haven't heard back from him. I asked him because when I called him he doesn't have a voicemail box setup.

Sept 15th
Came back at total time and more
were at Boca Park - I was still followed
by a woman and a man.

*

At the 24 hour Fitness Gym in Summit NJ
around 12:30 pm in the afternoon
on Sept 14th or it was Sept 13th

The same man I gave a lift ride to
the Albertsons here on Fort Apache & Nutt
Shara at night around 10:30 pm.
He been following me at the grocery stores
also -

running thru Albertsons two one off of
Durango & Flamingo - yelling out ~~the~~
"It your life"

Then running up to me while at the Sports
on Rambo just past the Wal-Mart Shopping
Center.

Ran up to me while I was speaking to the
Boys' Head Representative - Caring in my
face & space saying he is allergic to it.
Then a woman blocking the product on the
shelf wall so I couldn't buy it.

On Sept 13th or it was Sept 13th
at the Gym - The same man saw me
he knew I recognized him - He was
talking to what ~~app~~ appeared to be a
Doctor in Surgeon Scrubs - He saw me
as well and they both ran out.
